## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments filed 8/22/02 have been fully considered but they are not persuasive. Applicant has modified his independent claims, making the M data channels "dynamically" correspond to one of the N pilot channels and argues that this negates the Keskitalo reference. The examiner accepts applicant's arguments as to why Keskitalo no longer applies to the amended claims. Thus, a new reference is applied, at least, to applicant's broadest claims.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 1, 6, 12, and 14 are rejected under 35 U.S.C. 102(e) as being anticipated by Wright.

Regarding claims 1, 6, 12, and 14, Wright discloses a differentially encoded pilot word system for wireless transmission of digital data. Wright by definition relates to data channels. However, Wright provides for a dynamic link to the pilot channels serving the receiver. Wright uses periodically transmitted, differentially encoded pilot words to allow a receiver to rapidly synchronize with a transmitter. Once the receiver becomes synchronized with the transmitter, the receiver uses the pilot symbols to differentially encode pilot words to perform channel estimation and compensation (Abstract). The pilot symbols of the pilot words are predetermined symbols that are known to the receivers in the system. Thus, the receiver utilizes aspects (symbols or words) of the pilot channel to perform estimates of the current state of the data channel. Therefore, a dynamic correspondence between the pilot and data channel.

***Allowable Subject Matter***

4. Claims 11, 13 and 15 allowed.

The following is a statement of reasons for the indication of allowable subject matter: The antenna aspects of the invention where the selecting of optimum patterns of the directivity patterns and the selecting of one pilot channel for each directivity pattern used for the data channel was neither found, suggested, nor made evident by the prior art.

5. Claim 2-5, and 7-10 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The following is a statement of reasons for the indication of allowable subject matter: Regarding claims 2-5 7, and 9, the aspects of these dependent claims were neither found, suggested, nor made evident by the prior art.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
